### Programs By Service Taxonomy - Primary and Secondary

(See explanation of primary and secondary services on last page)

Agency/Program Name	Program Level			SDL Zip	Program Level Language
	Served	Capacity	Total Staff		

Notes:

Agencies and Programs that have an asterisk (\*) before their name are included in this database because they are referenced in another Agency's profile (but not in their own profile). For example, a Funder may identify a Program they fund for a Provider that did not submit a profile to First Call For Help.

Agencies/Programs that start with "zz" indicate that the agency/program is no longer in operation or is no longer being provided.

#### Primary and Secondary Services

Primary services are defined as stand alone services offered to qualified clients. Secondary services are services that are provided to clients contingent on their receiving a primary service. For example: A primary service offered by a child care center might be day care. A secondary service would be the provision of food (breakfast and/or lunch) to children participating in the day care program.
